Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to the application filed on May 14, 2001, in which claims 1-83 are presented for examination.

Election/Restrictions

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

The following inventions is required under 35 U.S.C. 121:

- I. Claims 1-57, drawn to a system for generating classification data for text, classified in class 707, subclass 6.
- II. Claims 58-83, drawn to a fuzzy logic retrieval system, classified in class 707, subclass 5.

Inventions I and II are related as combination disclosed as usable together in a single Combination. The subcombinations are distinct from each other if they are shown to be separately usable. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations. (M.P.E.P. 806.05(c)). The inventions are distinct, each from the other because of the following reasons:

In the instant case, *invention I* has separate utility such as for an automatic text classification system; and *invention II* is useable for directing to a techniques including fuzzy search, ranking or weighing, relevance, thesaurus, and concept retrieval. See M.P.E.P. .

Art Unit: 2162

806.05(d). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed. These inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification. The search required for Group I is not required for Group II. Restriction for examination purposes as indicated is proper.

A telephone call was made to Holtz Leonard (Reg. No. 22,974) on February 23, 2005 to request an oral election to the above restriction requirement, but there was no communication and did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant also is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

CONCLUSION

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean M Corrielus whose telephone number is (571) 272-4032. The examiner can normally be reached on 10 hours shift.
